DESCRIPTION

I excel in video editing, web designing, and UI/UX design, merging creativity with precision to produce captivating visuals. My expertise spans crafting visually compelling video content, user-friendly websites, and seamless UI/UX experiences. and seamless interfaces.

LIVE PROJECTS

Game Store Website | EPIC Games

- Managed gaming-focused digital distribution site, akin to Epic Games Store. Crafted website pages including the homepage, store, and more, focusing on enhancing user experience, designed the logo.

AI-Driven Path Optimization for Transportation | Safar

- "Safar" uses Python, Flask, and A* search to find optimal transportation routes, costs, and durations between user-defined coordinates, with OpenStreetMap and Leaflet.js integration for mapping.

Skill Sharing Website | SkillSwap

- "SkillSwap" is a dynamic online platform where individuals can exchange their expertise. Users offer skills they excel in and seek others in return.
